# VUEPIX™

## EQUIPMENT SPECIFICATIONS:

LED TYPE:	SMD LED
PITCH:	18mm
PIXEL DENSITY:	2178 (66x33)
POWER DRAW:	2A
LIGHT OUTPUT:	5000 nits
WEIGHT:	15kg
VIEWING ANGLE:	140° (H) 140° (V)
DIMENSIONS:	1152mm x 576mm x 80mm

## Vuepix P18 LED

### Vuepix P18 LED Screen – the next generation of video production creativity.

The Vuepix panel is the building block of an innovative, transparent, large scale video screen solution. The panel's unique design, with its low profile central support makes the system 40% transparent when the screen is off as well as being extremely lightweight.

Vuepix P18 is a high resolution display (18mm pixel pitch) that deploys rapidly and folds together for easy stacking and portability. Ideal for both permanent and temporary applications, Vuepix P18 works well in architectural spaces, trade shows, TV stage sets, or concerts.

Vuepix P18 is a modular system composed of individual 1200mm x 600mm panels. An integrated power supply and data routing unit mounts with each screen panel. Processing hardware converts a DVI, HD, SDI, s-video, component, or composite video signal that is routed to the individual panels.

This product is an outdoor-rated IP65 product.
